

Kidney Donor

Thank you for your interest in improving the kidney donation experience.

This questionnaire is part of a research project aimed at designing a digital platform to support and simplify the kidney donation process. We're gathering insights directly from donors—whether you've donated a kidney in the past, considered donation, or supported a loved one through the process.

Your responses will help us understand:

- The challenges donors face during the donation journey
- What information, support, and tools would make the experience easier
- What features a digital platform should include to better serve donors like you

This form will take about **3-5 minutes** to complete. All responses will remain **anonymous and confidential**.
